**Phytosanitary requirements for importing Pea seed (*Pisum sativum*) for sowing  
from Poland to I.R. Iran**

1- Valid phytosanitary certificate from the country of origin, in which freeness of consignment from the following pests is indicated in the Additional Declarations (A.D):

1. *Broad bean true mosaic virus*                                  2. *Pea early –browning virus*  
3. *Pseudomonas savastanoi pv. phaseolicola*

Note: The scientific name of the above mentioned pests should be indicated in the phytosanitary certificate, otherwise; the documents are considered as incomplete. Moreover, any financial customs losses and non-delivery of the consignment due to the non-compliance are to be borne by the importer/s.

2- Disinfection of the consignment with a suitable fungicide in the country of origin and mentioning its particular features in the relevant phytosanitary certificate.

3- The consignment must be free from soil, crop residue, weed seeds, live insects and plant disease symptoms.

4- Each part of consignment must be properly packed and labeled including the scientific name of plant (genus and species).

5- Delivering the original phytosanitary certificate with mentioned requirements as well as other necessary documents to quarantine officers at the time of inspection of the consignment in destination border and customs clearance is mandatory. Otherwise, the importer will be found responsible for the consequences.

6- If the consignment is of any infections which could be disinfected by quarantine officer expediency, the cost must be borne by the importer; otherwise it is destroyed or returned to the country of origin. If any quarantine pest is found, the consignment will be destroyed or returned.
